Paper Submission

It is our pleasure to welcome all participants to the **2017 The 4th International Conference on Manufacturing and Industrial Technologies (ICMIT 2017)** will be held on **May 27-29, 2017 at Lisbon, Portugal**. ICMIT The purpose of ICMIT 2017, following the footsteps of the previous editions, is to promote activities in various areas of Manufacturing and Industrial Technology by providing a forum for exchange of ideas, presentation of technical achievements and discussion of future directions. The ICMIT brings together an international community of experts to discuss **the state-of-the-art, new research results, perspectives of future developments, and innovative applications relevant to intelligent and computer control systems, robotics, 3D printing, factory communications and automation, flexible manufacturing, data acquisition and signal processing, vision systems, and power electronics, and other related areas**. Manufacturing and Industrial Technologies 2017 is a three days networking conference with a wide variety of plenary and interactive sessions, inspiring keynote speakers, case studies, eye-opening site visits and numerous opportunities to get in contact with new business partners. **We look forward your contributions to ICMIT 2017!**

Conference proceedings:

Accepted papers will be published by conference proceedings,
which will be index by **【EI&Scopus】** .

Topics:

Topics of interest for submission include, but are not limited to

Manufacturing System and Technologies

- Manufacturing Process Simulation
- CIMS and Manufacturing System
- Vibration Measuring and Reliability Analysis
- Finite Element Analysis and structure optimization
- Fault Diagnosis and Maintenance Theory
- Intelligent Mechatronics and Robotics
- Elements, Structures, Mechanisms, and Applications of Micro and Nano Systems

Material science and Technology in Manufacturing

- Artificial Material
- Forming
- Novel Material Fabrication
- Green Manufacturing
- Design and Manufacturing of Composite Components
- Surface Science and Engineering
- Quality Control of Manufacturing Systems
- Theoretical, simulation and experimental studies related to microstructure and residual stress in nano-crystalline diamond film

OUR PROGRAM:

May 27, 2017

10:00-17:00 Registration onsite

14:00-17:00 Workshop

May 28, 2017
