

Dear Colleague:

Theoretical and Applied Mechanics is an Open Access international quarterly journal founded in 1980. year in the former Yugoslavia. It has been the official journal of the Serbian Society of Mechanics.

It is aimed to publish contributions from all fields of theoretical and applied mechanics including experimental contributions. Contributions from the field of Control Theory and Thermodynamics, including Heat and Mass Transfer, are welcomed. Interdisciplinary contributions among Elasticity, Plasticity, Continuum Mechanics, Nonclassical Media, Mechanics of Materials, Smart Materials, Fluid Mechanics, Rheology, Relativity, Biomechanics, Analytical Mechanics will be specially promoted.

Editorial board consists of internationally highly esteemed researchers and its articles are indexed/reviewed in *Mechanica* (Russian ref. journal), *Aeronautical abstracts*, *Applied Mech. Reviews*, *Mathematical Reviews*, *Zentralblatt fuer Mathematik und ihre Grenzgebiete*.

A peer and fast review procedure and publication speed of the journal is our must. All the correspondence including submission is by e-mail. Thus the speed of publication is much larger. Size of paper is not limited – the only requirement is top quality.

The submitting procedure as well as the complete information about the Theoretical and Applied Mechanics, is available at the journal's website: <http://www.ssm.org.yu/WebTAM/journal/journal.html>

The papers are not subject to publication charges.

Without limitation to the subscribing institutes, it enables immediate, worldwide, barrier-free, open access to the full text of research articles published. Authors retain the copyright of their papers as long as they are properly cited.

I would like to take this opportunity to invite you to submit your research paper.

Please don't hesitate to contact me if you have any other questions about the journal.
With many thanks and best regards.

Sincerely yours,

Prof. Milan Micunovic
Editor-in-Chief of the Theoret. Appl. Mech.
