Deadline for manuscript
submissions:

31 December 2019

Message from the Guest Editor

Dear Colleagues,

Shape-memory polymers (SMPs) are polymeric smart materials which have the ability to return from a fixed temporary shape to their original permanent shape upon induction by an external stimulus such as heat, light, electric or magnetic field, or solution.

This Special Issue of *Polymers* will cover a broad range of research activities on the design and manufacturing of shape-memory polymers and active structures, including synthesis and characterization of SMPs, constitutive modelling of SMPs, design and manufacturing of active structures, and 4D printing with SMPs. In addition, review papers featuring progresses in a particular area are welcomed. This Special Issue aims to collect recent findings and comprehensive reviews from experts in this very active field of research and will hopefully be a useful source of information for researchers.

Editor-in-Chief

und Polymertechnologien
Universität Potsdam, Germany

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 3.164.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High visibility: indexed by the Science Citation Index Expanded (Web of Science), Scopus (2017 CiteScore: **3.30**), Ei Compendex, CAS, Polymer Library, EBSCOhost and Current Contents - Physical, Chemical & Earth Sciences. Citations available in PubMed, full-text archived in PubMed Central.

Rapid publication: manuscripts are peer-reviewed and a first decision provided to authors approximately 16.7 days after submission; acceptance to publication is undertaken in 4 days (median values for papers published in this journal in 2018).
