

Bridgestone Americas Tire Operations (BATO) is a business unit of Bridgestone Americas, Inc., whose parent company, Bridgestone Corporation, is the world's largest tire and rubber company. BFNT develops, manufactures and markets Bridgestone, Firestone and associate brand tires. BATO develops, manufactures and markets Bridgestone, Firestone and associate brand tires. The business unit is focused on wholesale and original equipment markets, supplying passenger, light truck, commercial vehicle, off-road, motorcycle, agricultural, and other tires to its customers in the Americas. The Product Development Group, BATO is currently seeking candidates for positions at its Technical Center in Akron, Ohio.

Advanced Tire Technology (Mechanical Engineering - BS, MS, PhD)

Engineers in this area are responsible for tire measurement, testing and simulation technology to improve tire understanding and performance. They will be challenged to investigate and clarify the mechanistic behavior of tires and their influence on vehicle system performance. Ideal candidates are team players with an interest in solving engineering problems and applying their technical skills to a variety of tire mechanics themes such as contact mechanics, rubber and cord composite mechanics, nonlinear material characterization, novel experimental and computational analyses of tire and vehicle systems.

We offer a challenging work environment, competitive salary and comprehensive benefits including:

- | | | | |
