

The PhD Programme in Mechanical Engineering

at Politecnico di Milano

XXIX PhD Cycle
Call for Application

The Department of Mechanical Engineering of Politecnico di Milano is currently seeking applicants for PhD positions in the following research areas:

- 1- Dynamics and Vibration of Mechanical Systems and Vehicles
- 2- Machine and Vehicle Design
- 3- Manufacturing and Production Systems
- 4- Methods and Tools for Product Design
- 5- Materials
- 6- Measurements and Experimental Techniques
- 7- Smart Materials and Structures

Detailed information on our scientific areas, scholarship availability and proposed research topics can be found at www.mecc.polimi.it (Research -> PhD)

Full funded positions (Scholarship, 1.200 euro/month net amount) benefit from:

- housing financial support (for top-level foreign students 1.500 euro - first year only)
- financial aid for study materials and conference fees (600 euro/year)

Candidates with scholarship receive also extra-funding (500 euro/month) for research periods abroad (up to 18 months)

ELIGIBILITY: Master of Science; English language proficiency (certified)

APPLICATION PROCEDURE: Online application available on www.polimi.it

MANDATORY ATTACHMENTS: CV and research project proposal

SELECTION: all profiles will be evaluated by an Admission Board, composed by members of the PhD Faculty. Specific information on evaluation procedure and application assessment is available in the XXIX Cycle Call for Application.

STARTING OF ACTIVITIES: November 1, 2013

Application deadline: MAY 24, 2013
