

POSTDOCTORAL ASSOCIATE POSITION

University of Pittsburgh

The Shankar Research Group at the University of Pittsburgh anticipates an opening for a postdoctoral associate starting March 2019. The position's primary area of research will focus on design and integration of flexible electronics with responsive polymers. A background in microfabrication and design of electromechanical systems is preferred.

The initial appointment is for one year with potential to extend up to two years, subject to the availability of funds. The candidate is expected to be independent, self-motivated and possess a proven record of high-quality publications. A doctoral degree in Electrical, Mechanical Engineering or Materials Science is preferred. We will review applications on receipt. Interested applicants may forward their CV and contact details of three references via email to:

M. R. Shankar

Professor

University of Pittsburgh

Department of Industrial Engineering
